SAYS	THINKS
- I'm so confused, I just don't understand how this algorithm works. - I've been stuck on this same problem for hours and I'm not making any progress. - I wish I had a tutor who could just explain this patiently without judging me.	- Everyone else in the class seems to get this much faster than I do. - Maybe I'm just not smart enough for this subject, I should give up. - I need help, but I'm too embarrassed to ask my professor or friends.
